Job Description

become part of a young performing team, in a stimulating working environment combining a friendly, casual atmosphere with cutting-edge technologies and a great diversity of tasks.

As a Market Surveillance Officer, you will be part of the Market Compliance Function of the Bank. Among others, your tasks will typically be the following:

Monitor clients' securities trading activities

Identify and analyse potential prohibited market conduct (insider trading and market manipulation)

Liaise with internal stakeholders (Legal, Compliance, Trading, Quantitative Research & Solutions, IT) as well as with external stakeholders (SIX Exchange Regulation and counterparties)

Qualifications

Ongoing Bachelor Degree in Economics or from an Institute of Technology

Good knowledge of English and French

SIX or Eurex trading licenses is a plus

Familiar with financial markets and trading activities

Self-motivated and passionate about macroeconomics and the financial industry

Strong teamworking and collaboration skills

Ability to monitor your own workload and meet work objectives

Ability to work autonomously and under pressure
